

Contents

1 Introduction	1
1.1 Foreword	1
1.2 Objectives and Aims	1
1.3 Waste Classification and Landfill Types	2
1.4 Layout of the Guidelines	4
2 Landfills and Legislation	5
2.1 Introduction	5
2.2 Resource Management Act (1991)	5
2.3 Resource Consents	6
2.4 Resource Consent Application Process	11
3 Landfill Siting	13
3.1 Introduction	13
3.2 Landfill Siting Philosophy	13
3.3 Strategic Planning	13
3.4 Site Selection Process	14
3.5 Landfill Siting Criteria	17
4 Landfill Design	23
4.1 Introduction	23
4.2 Design Philosophy	23
4.3 Design Considerations	25
4.4 Groundwater Management and Control	30
4.5 Surface Water and Stormwater Management	30
4.6 Leachate Generation and Characteristics	31
4.7 Leachate Retention and Liner Systems	35
4.8 Leachate Collection and Removal Systems	38
4.9 Leachate Recirculation	38
4.10 Leachate Treatment and Disposal	39
4.11 Landfill Gas Management	40
4.12 Landfill Cover Systems	43
4.13 Construction Quality Assurance and Construction Quality Control	46
5 Landfill Operations	51
5.1 Introduction	51
5.2 Landfill Management Plan	51
5.3 Staffing and Training	51
5.4 Health and Safety	52
5.5 Site Access	52
5.6 Waste Acceptance and Monitoring	52
5.7 Roding	55
5.8 Visual Impacts	55

5.9 Waste Compaction	55
5.10 Cover	56
5.11 Nuisance Control	57
5.12 Fire Prevention	60
5.13 Water Control	60
5.14 Landfill Gas Management	62
5.15 Closure and After-care	63
6 Landfill Monitoring	65
6.1 Introduction	65
6.2 Objectives of Monitoring	65
6.3 Leachate Monitoring	65
6.4 Groundwater Monitoring	66
6.5 Surface Water Monitoring	73
6.6 Analysis and Review of Monitoring Data	77
6.7 Landfill Gas Monitoring	79
Glossary	85
Bibliography	89
Appendices	91
Appendix 1: Relevant Case Law	91
Appendix 2: Relevant Regulatory and Best Practice Background.....	93
Appendix 3: Landfill Management Plan Outline Table of Contents	99
Appendix 4: Waste Classification for Landfill Disposal	101
Appendix 5: USEPA Toxicity Characteristic Leaching Procedure Limits	105
Appendix 6: NSW EPA Leachable Concentrations and Total Concentration Values for Solid Waste Landfills	107
Index	109

Figures

Figure 1.1: Environmental protection — illustrations of source/receptor/pathway	2
Figure 4.1: Typical operational plan for landfill site	29
Figure 4.2: Landfill water balance issues	34
Figure 4.3: Recommended liner designs	36
Figure 4.4: Example of passive landfill gas venting well	42
Figure 4.5: Example of passive landfill gas venting system	43
Figure 4.6: Example of landfill gas extraction well	44
Figure 4.7: Examples of final cover designs	45

Tables

Table 2.1: Regulatory authority resource consent responsibilities	9
Table 4.1: Changes in leachate composition in different stages of a landfill	32
Table 4.2: Leachate characteristics at selected New Zealand landfills	33

Table 4.3: Typical constituents found in landfill gas	41
Table 4.4: Soils - recommended tests and testing frequencies for material qualification before construction.....	46
Table 4.5: Soils - recommended tests and testing frequencies prior to installation	47
Table 4.6: Soils - recommended tests and testing frequencies during construction	47
Table 4.7: Geotextile - recommended tests and testing frequencies	48
Table 4.8: Geomembrane - recommended tests and testing frequencies	48
Table 4.9: Geosynthetic clay liner - recommended tests and testing frequencies	49
Table 4.10: Geocomposite - recommended tests and testing frequencies	49
Table 6.1: Example leachate monitoring programme for a regional landfill	67
Table 6.2: Example groundwater monitoring programme for a regional landfill	71
Table 6.3: Example surface water monitoring programme for a regional landfill	75
Table 6.4: Example surface water monitoring strategy	77
